

PRO-GLUER PG100

Simple, straight line gluer

- Simple to use, fast set-up, high output, semi-automatic box gluer
- Glue your boxes quickly, easily and efficiently
- Highly productive running at up to 30 metres per minute – variable speed setting
- Uses standard cold PVA adhesive – with stainless steel easy-clean reservoir
- Simple to set up and to operate with minimum operator training
- Programmable batch counter with alarm
- All electric, single phase supply

The **PRO-GLUER PG100** is a high output, semi-automatic box gluer designed and manufactured to operate with Kolbus AutoBox's world leading box making machines. Requiring only single phase connection and minimal training to operate, this robust addition to your process will boost production by bringing greater efficiency and versatility to your shortrun box making capabilities.

- **Box squaring device**
– reduces fish-tailing
- **Adjustable glue meter**
- **8 x 100mm drive belts**
- **Programmable batch counter**
- **Foot pedal operation**
- **Variable drive speed**

- Maximum blank size** 1200 mm x 2400 mm
- Minimum blank size** 100 mm x 330 mm
- Maximum board thickness** 10 mm
- Working table height** 750 mm
- Working table depth (fully extended)** 1200 mm
- Adhesive reservoir capacity** 1.5 litres
- Maximum through-put speed (adjustable)** approx. 30m/min
- Overall dimensions** 2600 mm x 1500 mm x 1300 mm
- Gross shipping weight** 300 kg
- Power requirements** 220-240 V 50-60 Hz single phase
